**2 ii) Brief details regarding background of the Trust/Society, Governing body members, etc.**

Ch.S.D.St.Theresa's College is managed and administered by the Society of Sisters of St. Ann of Providence. Sisters of St. Ann is a Congregation dedicated to the cause of education of the youth with special predilection for poor and the underprivileged. The sister hood was started in Turin (Italy) in 1834 by a noble couple, Marquis Carlo De Barolo and Marchioness Julia De Barolo. The Mission of Education was entrusted by them to a band of dedicated young women, who would consecrate their lives in the service of others. The first sister who received the Mandate was Mother Enrichetta Dominici. The missionary zeal to spread God's love to the poor and needy brought them to India in 1871 and they started the first school for children at Secunderabad.

The commitment and single-minded devotion with which the sisters carried out the educative mission paved the way for speedy expansion of schools, hospitals and dispensaries, orphanages and Technical Institutes all over India.

St.Theresa's College at Eluru was started in 1953 at the request of the parents and well-wishers of Eluru, who desired to have a good ambience for the education of their girl children.

**13. Strengths & Weaknesses of the institution in terms of Teaching Methodology/Transaction of Syllabus /Innovations /best practices (if any)/ industrial project / Industrial consultancy / research taken up for industry and amount granted thereby:**

**Strengths:-**

St. Theresa's Autonomous College for Women, Eluru has come a long way in providing Quality education to the women of primarily rural background of the West Godavari belt (district). While the conferment of Autonomous status in 1988 had created a sea change in the outlook of the policy makers the institution ushering in innovations in Curriculum Design teaching/learning activities and Evaluation system, it was the Accreditory process of the NAAC in 1998 that set the institution towards quality enhancement and sustenance, seeking greater relevancy and currency in the education processes. The quality drive on the campus evoked a paradigm shift from self complacency to soar towards excellence by training students through renewed educational processes offered in a salubrious educational climate, to face local, national, global challenges.

The onward march towards providing quality education meant, a primary assessment of the institutions strengths and weaknesses. The Ist evaluatory processes of NAAC had allocated commendably 'high' ratings in the field of teaching/learning experiences, Evaluatory processes, infrastructure Organization and Management, and Student Support Systems. Recognition of these strengths motivated the institution to work with greater efficiency levels in order to sustain the excellence and at the same time to attempt to seek newer avenues in improving existent standards. This has manifested in vastly student-centric welfare activities at all levels geared to provide the best standards within scope and range.

From the top-level management bodies down to the bottom level committees there have been continuous involvement in planning the course of action to improve standards. This has resulted in the healthy trend of Total Quality Management, which has enabled a series of quality enhancement measures. All these decision making bodies have helped to 1) Identify Quality Bench-marking in all criteria 2) Evolving of suitable Sub-committees with greater power – allowing decentralization 3) Evolving strategies to strengthen Human Resources and finally culminating in the setting up of the IQAC which has resulted in the “sustained levels” of improvement in all aspects.

The materialization of the plans of action has been a sign of an improving in the Quality Enhancement process. (1) Most conspicuous of them is the remarkable and steady growth of Research culture and spirit of enquiry among staff and students. (2) The second most important change has been the introduction of the Choice Based Credit System which has resulted in an effective realization of learner-needs through multiplicity and flexibility of learner options. (3) The setting up of “Asakiranam” a training centre for the poorest of the poor within the campus is a landmark in the service oriented activities of the institution. (4) Setting up of staff development Committees such as the T-TIPS (Theresian Teachers Training Programme) for excellence in Teaching Learning methodologies, E.D.C. (Entrepreneur Development Cell) Unit to promote job orientation, encourage skill enhancement in society and campus, the LCSD Unit to enhance life coping skills in student community are but a few of the dynamic processes undertaken by the institution. (5) Major infrastructural improvements, the evolvement of a highly learner-friendly ambience and promotion of highly useful welfare programmes for stakeholders have made STC a learners’ ‘haven’, a centre buzzing with activities aimed at the harmonious pursuit of knowledge and skills.

All activities undertaken have been under a constant process of evolvement and have reflected flexibility to change according to the changing needs of the learner. The authentic and transparent admission policies efficiency and merit based recruitment policies, coupled with democratic planning and organizing methods have helped to speed up the growth of the institution.

An effective Feed back mechanism has allowed the institution to gauge its weakness and rectify them, and work with renewed vigour and enthusiasm. Envisioning future programmes with great foresight and care, strategic planning and dedication combined with zeal in enabling changes to materialize are definitely the strengths of this glorious institution. The Institution ‘trains’ both staff and students to ‘equip’ for the future and surge ahead to achieve the goal which is to create integrated women leaders, empowered and committed to excellence.

**Areas that need improvement:**

- The marked need to usher in the spirit of the culture of Research in order to foster the spirit of enquiry and explosion of knowledge on the campus.
- The need to train students to cater to the job market by offering students a multi-dimensional educational pattern inclusive of skill- oriented courses, job-generating skills, life-coping skills.
- The need to improve infrastructural facilities to cater to the burgeoning needs of learner-centric activities.
- To link all educational activities to extension services to the immediate neighbourhood in specific and the nation and world at large.
- The need to evolve quality practices in the Teaching Learning process which is the crux of the educational process.
